Installation Instructions

Step 1

Look in the directory where you unzipped the file and locate the config.php file.

Name	Size	Type	Date Modified
greybox		File Folder	9/7/2010 2:24 PM
img		File Folder	9/7/2010 2:23 PM
instructions		File Folder	9/7/2010 10:35 PM

Right-click on the config.php file to Open the file with your text editor software. If you're asked to choose the software, select Notepad.

Step 2 - There are only eight changes plus the Store links in the config.php file.

```
config.php - Notepad

if($sort=="") {$sort="relevance";}
```

Only edit what's between the quotes (either single ' or double " quotes). Otherwise the site may not function. To edit, click your mouse cursor between the first quote and the letter. Then repeatedly press the delete button until all letters are deleted. Be sure to leave the second quote. Then type your values.

1. **Site URL:** replace our site with your site. Be sure to keep the http:// and **NO TRAILING SLASH**. For example you do this – <http://yoursite.com> *not* <http://yoursite.com/>
2. **Site Name:** replace or keep the name if you like it. Most people replace it if you have a related domain name like BestDamnHealthCareSite.com
3. **Slogan:** this goes just below the Site Name. Again keep or replace what we have.
4. **ContactUs:** this is the email address where you will receive info sent to your web visitors when the complete your site's Contact Us form from the link at the bottom of every page.
5. **AdSense ID:** make sure you keep the *pub-* portion of the ID. To find your ID, login to your account and look in the upper right corner. Get a free account at <http://adsense.google.com>
6. **ClickBank ID:** type your nickname. Get a free account at <http://sonicpoint.net/cbank.php>
7. **Commission Junction ID:** type your PID *not* the AID you find when getting the HTML code. You need to login. Then search for eHealthInsurance.com. Then apply to eHealthInsurance.com with a fully operational site. Once approved. Log back in. Find them again. Click Get HTML and copy/paste the PID in your config file. Get a free account at <http://sonicpoint.net/cj.php>
8. **Tag:** This is the topic to show on the Videos page when your visitor first clicks the link. Change it to whatever you want. Or keep it.
9. **Store Links:** this may be a little more work than you're used to. But it's well worth it because you get 50% residual commission! Once your site is operational, apply with Market Health affiliate program at <http://sonicpoint.net/mkthealth.php> . Upon approval, login to Market Health. Click Offers|List All Offers. One by one, find each product and click the link to the product description page. Then click Create Campaign. Follow through the forms. Then copy/paste your affiliate URL into the appropriate Store Link in the config.php file. It should be obvious which URL goes with which product because I purposely named the variables to match the product.

Click File|Save

Step 3

Upload all files and folders (*a/k/a directories*) keeping the same structure. You **do not** upload the folders labeled *instructions*, *license* or *salespage*.

1. Upload *all* **.php**, **.html**, **.js** and **.css** in ASCII/Text format. If you're using FileZilla, CuteFTP or a web-based solution, they usually are set correctly so you simply upload everything.
2. Upload all image files (**.jpg**, **.png**, **.gif**) in *Binary* mode.
3. Point your web browser to YourHealthCareSite.com and test your site.

That's it!

If you need installation, [click here](#).
